- Intuitive 4.3" touchscreen with user interface provides an enhanced experience when operating and programming the brewers
- The Infusion Series® Platinum Edition relies on the powerful duo of the Peak Extraction Sprayhead and SmartWAVE® technology to further enhance the uniformity of extraction and resistance to limescale buildup.
- Platinum Edition SmartWave technology delivers a timed air purge at the end of the brew cycle, removing residual water from the sprayhead, reducing lime build up and ultimately extending the life of the equipment
- USB port for easy programming
- Digital readout displays in English, Spanish, or French ---for easier programming and control
- Energy-saver mode reduces tank temperature during idle periods
- Electronic funnel lock prevents removal of each brew funnel until drip- through is complete
- ICB TF 54300.0100 is compatible with new TF 1.0-gallon Baseless ThermoFresh® Servers, all previous generations of TF 1.0-gallon Baseless TF Servers, and Airlpots
- PROP 65 Warning Decal included in packaging with equipment

*When a BUNN is machine rated 120/208-240V, 120/208V or 120/240V, the higher voltage is the supply voltage needed to power the machine. The 120V is there to supply power to some components rated 120V in the machine, but it is not the supply voltage and would not power the machine if the machine is marked with the before mentioned ratings.
